ERRATUM

Adopted: November 24, 2003

Released: November 24, 2003

By the Acting Deputy Chief, Mobility Division:

1. On October 6, 2003, the Commission released its Report and Order and Further Notice of Proposed Rulemaking (*Secondary Markets Report and Order and FNPRM*), FCC 03-113, in which it adopted various spectrum leasing policies and streamlined its policies regarding the processing of applications for assignment of authorizations and transfers of control.¹ The *Secondary Markets Report and Order and FNPRM* determined that the particular services affected by the Commission's streamlined transfer and assignment application processing policies were identical to those services encompassed within the spectrum leasing policies.² The text of one of the rule provisions, however, mistakenly did not reflect this determination. Accordingly, this Erratum makes the following correction to the *Secondary Markets Report and Order and FNPRM*. This correction will be incorporated into the text of the rules set forth in the summary of the *Secondary Markets Report and Order and FNPRM* published in the Federal Register, and the Erratum will be published in the FCC Record.

2. On page B-3 of "Appendix B – Final Rules," the text of § 1.948(j)(1)(xx) is revised to read as follows: "The Business and Industrial/Land Transportation (B/ILT) channels in which the licensees hold exclusive use rights (part 90 of this chapter) (including all B/ILT channels above 512 MHz and those in the 470-512 MHz band where a licensee has achieved exclusivity, but excluding B/ILT channels in the 470-512 MHz band where a licensee has not achieved exclusivity and those channels below 470 MHz, including those licensed pursuant to 47 CFR 90.187(b)(2)(v))."
